

Indo Cipanas Bonsai

Seasonal Bonsai Showcase: February Edition

BONSAI

JUNIPERUS CHINENSIS

Details

- Species: Juniperus sinensis (Chinese Juniper)
- Bonsai Age: ± 10–15 years
- Style (Kei): Informal Upright (Moyogi)
- Size: Compact, suitable for table display
- Foliage: Dense, vibrant green, well-structured pads
- Pot: Traditional rectangular unglazed clay pot with Chinese inscriptions

Highlights:

A well-balanced Moyogi-style bonsai with elegant movement and lush foliage. Its artistic form, combined with a strong trunk and precise branching, makes it a perfect addition for collectors and enthusiasts.

JUNIPERUS CHINENSIS

Details

- Species: Juniperus chinensis (Shimpaku Juniper)
- Bonsai Age: ± 5–8 years
- Style (Kei): Informal Upright (Moyogi)
- Size: Height ± 40 cm | Canopy Width ± 35 cm
- Nebari (Root Spread): Compact and stable with well-developed surface roots
- Trunk (Tachiagari): Elegantly curved with natural movement, showing gradual tapering
- Deadwood Features: Minimal deadwood, focusing on live vein aesthetics
- Branching (Eda): Well-structured, balanced, and layered for depth
- Foliage: Dense, vibrant green with healthy needle pads, expertly maintained

\$ 3,072

JAPANESE PINE

Details :

- Species: *Pinus thunbergii* (Japanese Black Pine)
- Bonsai Age: ± 20–30 years
- Style (Kei): Literati (Bunjin) with dramatic curves and deadwood features
- Size: Height ± 80 cm | Canopy Width ± 90 cm
- Nebari (Root Spread): Well-established with natural surface roots
- Trunk (Tachiagari): Aged, twisted, with striking jin and shari (deadwood) effects
- Branching (Eda): Well-placed pads with dense, vibrant green needle foliage

Highlights:

A masterpiece Bunjin-style bonsai with a strong character, aged trunk, and refined deadwood features. This specimen embodies resilience and artistry, making it a prestigious centerpiece for collectors.

\$ 980

PREMNA MICROPHYLLA (SANCANG BONSAI)

Details :

- Species: *Premna microphylla* (Sancang)
- Bonsai Age: ± 10–15 years
- Style (Kei): Informal Upright (Moyogi) with elegant movement
- Size: Height ± 50 cm | Canopy Width ± 70 cm
- Nebari (Root Spread): Exposed roots showing stability and age
- Trunk (Tachiagari): Gracefully curved with smooth bark and natural tapering
- Branching (Eda): Well-balanced, artistic pad formation with excellent ramification
- Foliage: Small, dense, vibrant green leaves, shaped with precise pruning

Highlights:

A Moyogi-style Sancang bonsai with an elegant, flowing trunk and well-structured branching. The mature canopy and artistic form make it an eye-catching addition to any collection.

\$ 3,572

JUNIPERUS SINENSIS – CHINESE JUNIPER BONSAI

Details :

- Species: Juniperus sinensis (Chinese Juniper)
- Bonsai Age: ± 10-15 years
- Style (Kei): Semi-Cascade (Han-Kengai) with artistic Shari & Jin
- Size: Height ± 70 cm | Canopy Width ± 80 cm
- Nebari (Root Spread): Strong and well-developed with natural surface roots
- Trunk (Tachiagari): Unique aged character with a striking combination of natural shari and reddish bark contrast
- Deadwood Features: Prominent Jin (weathered branches) and Shari (exposed deadwood) enhancing its ancient aesthetic
- Branching (Eda): Well-structured, elegantly wired with balanced branch distribution
- Foliage: Dense, healthy green pads with fine-textured leaves, meticulously pruned

\$ 3.100

PREMNA MICROPHYLLA (SANCANG BONSAI)

Details :

- Species: Juniperus sargentii Itoigawa (Itoigawa Shimpaku Juniper)
- Bonsai Age: ± 25-40 years
- Style (Kei): Tanuki (Phoenix Graft) – Fusion of live juniper with ancient deadwood
- Size: Height ± 55 cm | Canopy Width ± 50 cm
- Nebari (Root Spread): Well-integrated with the driftwood for a natural, harmonious look
- Trunk (Tachiagari): Dramatic deadwood Shari with a flowing, sculptural movement
- Deadwood Features: Aged and beautifully weathered Jin and Shari, displaying exceptional craftsmanship
- Branching (Eda): Well-balanced, compact foliage pads expertly wired for depth and structure
- Foliage: Vibrant green with dense, fine-textured needle leaves, a hallmark of high-quality Itoigawa variety

Highlights:

This Juniperus Sargentii Itoigawa bonsai is an artistic masterpiece, blending the elegance of ancient deadwood with the refined beauty of Itoigawa Shimpaku foliage. A prized addition for collectors and enthusiasts seeking a visually striking and historically rich bonsai.

\$ 1.500

JUNIPERUS SHIMPAKU ITOIGAWA – CLASSIC MAME BONSAI

Details :

- Species: Juniperus chinensis var. Itoigawa
- Bonsai Age: ± 15-30 years
- Style (Kei): Formal Upright (Chokkan) – A strong, balanced vertical form
- Size: Medium (Height ± 35-50 cm)
- Foliage: Lush, compact, vibrant green needle pads, a signature trait of high-quality Itoigawa varieties
- Branching (Eda): Well-distributed foliage layers forming distinct cloud-like pads
- Trunk (Tachiagari): Thick, mature trunk with natural taper and subtle Shari for aged character
- Nebari (Root Spread): Stable and well-developed, anchoring the tree beautifully
- Pot: Classic rectangular bonsai pot in earthy tones for an elegant aesthetic

\$ 600

PREMNA MICROPHYLLA (SANCANG BONSAI)

Details :

- Species: Juniperus chinensis var. Itoigawa
- Style (Kei): Cascade (Kengai) / Semi-Cascade (Han-Kengai) – Graceful flowing structure
- Size: Shohin (± 20-30 cm)
- Foliage: Dense, fine-textured, lush green needle pads
- Branching (Eda): Beautifully trained to form distinct cloud-like structures
- Trunk (Tachiagari): Delicate movement with subtle twists, showcasing maturity
- Nebari (Root Spread): Well-established for stability and aesthetic balance
- Pot: Training pot with quality akadama substrate for optimal growth

Highlights:

This Itoigawa Shimpaku bonsai is a masterpiece of precision and patience, ideal for collectors who appreciate compact, highly refined foliage with intricate branch work. The small size and elegant structure make it a perfect accent piece for any bonsai display.

\$ 1.100

JUNIPERUS SHIMPAKU ITOIGAWA BONSAI – A COMPACT MASTERPIECE

Details :

- Species: Juniperus chinensis var. Itoigawa
- Style (Kei): Stump Revival (Jin & Shari Feature)
 - A unique blend of aged wood and vibrant foliage
- Size: Shohin/Mame (\pm 15-25 cm)
- Foliage: Dense, fine-textured, vibrant green needle pads
- Trunk (Tachiagari): Distinctive deadwood feature (Shari & Jin) showcasing aged character
- Nebari (Root Spread): Well-developed for visual stability and aesthetic appeal
- Pot: Round, minimalist ceramic, complementing the tree's rugged elegance

Highlights:

This Shimpaku Itoigawa bonsai is a prime example of aged beauty combined with lush, compact foliage. The prominent Shari (weathered trunk) and Jin (deadwood branch) emphasize the tree's endurance, making it ideal for collectors who appreciate rugged natural aesthetics.

\$ 1.600

Juniperus Sargentii Itoigawa Bonsai

Details :

- Species: Juniperus chinensis var. Sargentii Itoigawa
- Style: Informal Upright (Moyogi) / Naturalistic Spreading Canopy
- Size: Medium to Large (\pm 40-60 cm)
- Foliage: Dense, vibrant green with compact needle pads
- Trunk (Tachiagari): Well-developed movement, dynamic curves, and textured bark
- Nebari (Root Spread): Excellent surface root exposure for stability and visual balance
- Special Features: Intricate deadwood (Jin & Shari) and meticulous branch refinement
- Pot: Traditional hexagonal ceramic with an earthy tone complementing the tree

Highlights:

This Juniperus Sargentii Itoigawa bonsai is a masterpiece of craftsmanship, featuring balanced branch structure, strong nebari, and vibrant foliage. Its mature trunk movement and deadwood features add a sense of timeless resilience, making it a statement piece for collectors or display purposes.

\$ 1.500

Izizuki Bonsai – Juniperus Sargentii

Details :

- Species: Juniperus chinensis var. Sargentii
- Style: Ishizuki (Root-over-Rock) / Rock-Grown Bonsai
- Size: Medium to Large (\pm 50-70 cm)
- Foliage: Compact, lush green pads with dense growth
- Trunk (Tachiagari): Natural fusion with rugged rock, creating a dramatic aged appearance
- Rock Base: Unique weathered stone with natural cavities, enhancing the tree's visual harmony
- Pot: Low-profile oval ceramic pot, complementing the natural landscape aesthetic

Highlights:

This Izizuki-style Juniperus Sargentii bonsai embodies the perfect blend of nature and artistry, mimicking trees that grow in harsh mountain environments. The deep green foliage contrasts beautifully against the textured rock, making it an exceptional focal point in any collection.

\$ 350

Original Juniperus Chinensis Bonsai

Details :

- Species: Juniperus chinensis (Chinese Juniper)
- Style: Informal Upright / Moyogi (under development)
- Size: Small (Shohin) – ideal for beginners and collectors
- Foliage: Vibrant green, dense, and healthy growth
- Trunk Movement: Natural curves with wired shaping
- Pot: Temporary plastic nursery pot (suggested upgrade for aesthetics)

Highlights:

This young Juniperus chinensis is in its early bonsai training stage, making it an excellent choice for styling and development. The tree has a strong foundation, flexible branches, and a healthy root system, allowing further shaping into a refined design.

\$ 700

Izizuki Bonsai – Juniperus Sargentii

Details :

- Species: Juniperus chinensis var. Shimpaku Itoigawa
- Style: Literati (Bunjin) – elegant, artistic form
- Trunk Character: Dramatic deadwood (Jin & Shari) with natural curves
- Foliage: Compact, lush green with dense growth
- Pot: Temporary training pot (recommended upgrade for aesthetics)

Highlights:

This Itoigawa Shimpaku displays classic literati styling, emphasizing an aged, windswept aesthetic with a striking deadwood feature. The foliage pads are well-formed, and with further refinement, this tree has strong potential for exhibition quality.

\$ 350

Original Juniperus Chinensis Bonsai

Details :

- Species: Juniperus rigida (Needle Juniper)
- Style: Literati (Bunjin) – artistic, upright, and elegant
- Trunk Character: Graceful curves with natural deadwood (Jin & Shari)
- Foliage: Needle-like, vibrant green with soft texture
- Pot: Temporary training pot (ideal for root development)

Highlights:

This Juniperus rigida exhibits great movement in the trunk, with delicate deadwood features enhancing its aged look. The well-structured foliage pads and refined branching suggest strong potential for an exhibition-style bonsai with further refinement.

\$ 1.100

Bonsai Juniperus Sinensis – A Masterpiece in Progress

Details :

- Species: *Juniperus sinensis* (Chinese Juniper)
- Style: Windswept / Literati (Bunjin) – showcasing movement and elegance
- Trunk: Dramatic curves with aged deadwood (Jin & Shari), enhancing an ancient appearance
- Foliage: Compact and well-distributed, forming defined foliage pads
- Pot: Training container (ideal for root development before final styling)

Highlights:

- The intricate twists and deadwood carvings give this bonsai a strong aged and weathered aesthetic.
- With refinement, the foliage pads can be further structured to enhance the tree's movement.
- A suitable bonsai pot (e.g., a shallow, unglazed ceramic pot) will enhance its mature appearance.

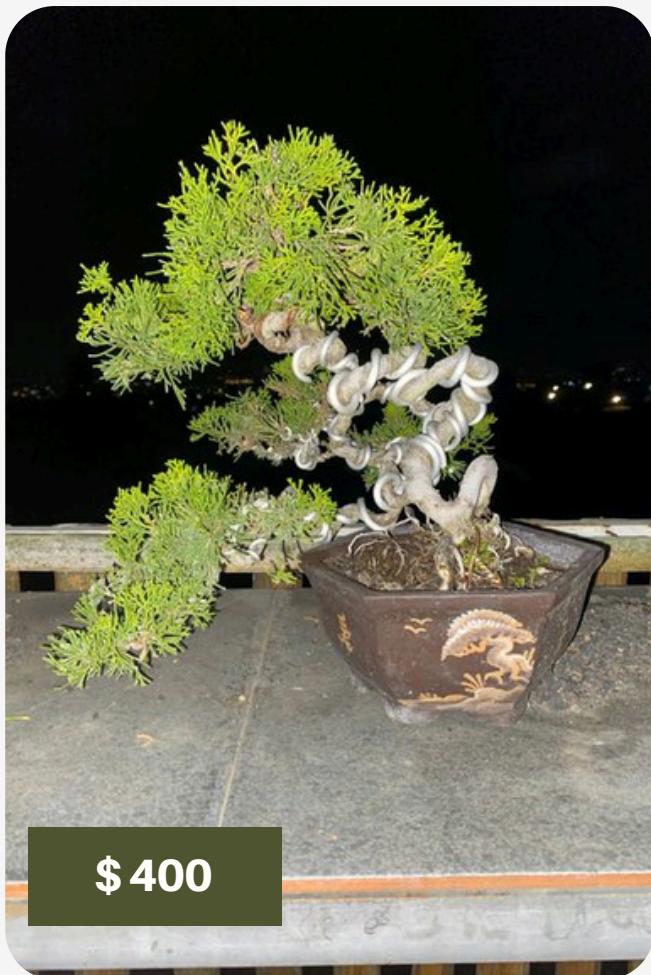

\$ 350

Juniperus Horizontalis Tanuki Bonsai

Details :

- Species: *Juniperus horizontalis* (Creeping Juniper)
- Style: Tanuki (Phoenix Graft) – A living tree is fused with a deadwood driftwood to create an aged appearance.
- Height: Measuring approximately 50 cm from the base.
- Trunk: The striking bleached deadwood (Shari & Jin) adds character and contrast.
- Foliage: Compact, with balanced foliage pads that complement the driftwood curves.
- Pot: A shallow, rectangular bonsai pot enhances the tree's visual stability.

Juniperus Sargentii Itoigawa

Details :

- Species: Juniperus sargentii var. Itoigawa – A highly prized juniper variety for its fine, compact foliage.
- Style: Informal Upright (Moyogi) / Cascade-like Shape – The dynamic curve adds movement and character.
- Trunk & Branches:
- Beautiful twists and curves, enhanced by strategic wiring.
- Exposed root base (Nebari) shows natural aging.
- Pot: A traditional hand-carved ceramic pot with a unique Japanese landscape design, complementing the tree's aesthetic.

Juniperus Shimpaku Khisu Tanuki

Details :

- Species: Juniperus Shimpaku – Known for its fine foliage and excellent adaptability for bonsai.
- Style: Tanuki Bonsai (Phoenix Graft) – A technique where a live tree is integrated with a beautifully weathered deadwood piece for an ancient look.
- Trunk & Deadwood:
- Stunning driftwood (Shari) effect, giving the impression of age and struggle.
- Well-fused live veins with the deadwood enhance its natural aesthetics.
- Foliage & Branching:
- Balanced foliage pads forming a cascading effect.
- Strong growth with a dense canopy.
- Pot & Display:
- Traditional rectangular unglazed pot, well-suited to the rugged tree structure.
- Placed on an elegant display stand, enhancing presentation.

Juniperus Sargentii Itoigawa

\$ 700

Details :

- Species: Juniperus chinensis (Chinese Juniper)
- Bonsai Age: ± 20-25 years
- Style (Kei): Literati (Bunjin-gi) with Shari & Jin features
- Size: Height ± 40 cm | Canopy Width ± 60 cm
- Nebari (Root Spread): Compact and stable, well-integrated with deadwood
- Trunk (Tachiagari): Unique Tanuki technique with natural deadwood fusion
- Deadwood Features: Dramatic Jin extending outward, beautifully aged Shari
- Branching (Eda): Well-structured with an elegant, flowing canopy
- Foliage: Lush, dense green with expert pad layering for a balanced silhouette

\$ 700

Juniperus chinensis 'Shimpaku' Khisu Tanuki

Details :

- Species: Juniperus chinensis 'Shimpaku'
- Bonsai Age: ± 15-20 years
- Style (Kei): Moyogi (Informal Upright)
- Size: Height ± 30 cm | Canopy Width ± 40 cm
- Nebari (Root Spread): Well-developed, stable, and natural-looking
- Trunk (Tachiagari): Gracefully curved with textured bark
- Deadwood Features: Subtle Shari, adding character and depth
- Branching (Eda): Compact and balanced with refined pad formation
- Foliage: Dense, vibrant green, well-maintained with expert pruning

Juniperus Sargentii Itoigawa

Details :

- Species: *Juniperus chinensis* var. *sargentii* 'Itoigawa'
- Bonsai Age: ± 2-8 years
- Style (Kei): Sokan (Twin Trunk)
- Size: Height ± 35 cm | Canopy Width ± 50 cm
- Nebari (Root Spread): Exposed root structure with natural taper
- Trunk (Tachiagari): Twin-trunk design with elegant curves and movement
- Deadwood Features: Minimal deadwood, focusing on refined structure
- Branching (Eda): Well-balanced, artistic layering with dynamic movement
- Foliage: Fine-textured, bright green, dense and healthy

\$ 350

Bonsai *Juniperus Sinensis*

Details :

- Species: *Juniperus chinensis* (Chinese Juniper)
- Bonsai Age: ± 10-15 years
- Style (Kei): Bunjin-gi (Literati)
- Size: Height ± 50 cm | Canopy Width ± 30 cm
- Nebari (Root Spread): Developing, with exposed roots adding character
- Trunk (Tachiagari): Graceful, slender, and well-twisted with dynamic movement
- Deadwood Features: No prominent Jin or Shari yet, allowing future refinement
- Branching (Eda): Sparse but well-positioned for future styling
- Foliage: Vibrant green, compact, and showing strong growth

\$ 700

JUNIPERUS SHIMPAKU ITOIGAWA

Details :

- Species: Juniperus chinensis var. Shimpaku (Itoigawa)
- Bonsai Age: ± 5-8 years
- Style (Kei): Literati (Bunjin-gi)
- Size: Height ± 25 cm | Canopy Width ± 18 cm
- Nebari (Root Spread): Compact with good root positioning for stability
- Trunk (Tachiagari): Elegant and twisted with natural movement, creating an aged appearance
- Deadwood Features: Well-crafted Jin on upper branches, adding dramatic character
- Branching (Eda): Sparse but well-placed, enhancing the literati style's artistic simplicity
- Foliage: Dense and bright green, forming small, refined pads typical of Itoigawa variety

\$350

ITOIGAWA JUNIPER (JUNIPERUS SHIMPAKU ITOIGAWA)

Details :

- Species: Juniperus chinensis var. Shimpaku (Itoigawa)
- Bonsai Age: ± 5-10 years
- Style (Kei): Informal Upright (Moyogi)
- Size: Height ± 35 cm | Canopy Width ± 40 cm
- Nebari (Root Spread): Well-developed with stable surface roots
- Trunk (Tachiagari): Elegantly twisted with natural tapering and strong character
- Deadwood Features: Subtle Shari along the trunk and minor Jin, enhancing aged appearance
- Branching (Eda): Well-structured and balanced, with classic tiered pad arrangement

JUNIPERUS SARGENTII ITOIGAWA – TANUKI BONSAI

Details :

- Species: Juniperus chinensis var. Itoigawa (Grafted on Deadwood)
- Bonsai Age: Living tree ± 15-20 years | Deadwood ± 50+ years
- Style (Kei): Tanuki (Phoenix Graft) – Semi-Cascade (Han-Kengai)
- Size: Height ± 50 cm | Canopy Width ± 60 cm
- Nebari (Root Spread): Naturally integrated with aged driftwood
- Trunk (Tachiagari): Dramatic driftwood formation with dynamic curves and movement
- Deadwood Features: Prominent Shari and extensive Jin, showcasing an ancient aesthetic
- Branching (Eda): Well-placed, following the flow of deadwood for a natural cascade effect
- Foliage: Vibrant green, compact Itoigawa pads, contrasting beautifully with the whitewashed driftwood

MORUS ALBA – WHITE MULBERRY BONSAI

Details :

- Species: Morus alba (White Mulberry)
- Bonsai Age: ± 5-10 years
- Style (Kei): Informal Upright (Moyogi)
- Size: Height ± 40 cm | Canopy Width ± 35 cm
- Nebari (Root Spread): Developing, with natural surface roots beginning terbentuk
- Trunk (Tachiagari): Moderately thick with natural taper and textured bark
- Branching (Eda): Well-positioned but still in tahap pengembangan untuk percabangan yang lebih halus
- Foliage: Medium-sized, bright green leaves, naturally reducing over time
- Fruit Production: Already showing young mulberries, adding aesthetic and ornamental value

Bonsai Cudrania

Details :

- Species: Cudrania cochinchinensis (Chinese Mulberry)
- Bonsai Age: ± 10-15 years
- Style (Kei): Moyogi (Informal Upright)
- Size: Height ± 35 cm | Canopy Width ± 45 cm
- Nebari (Root Spread): Well-developed, with exposed roots adding an aged look
- Trunk (Tachiagari): Unique taper with elegant natural movement
- Deadwood Features: No significant Jin or Shari, emphasizing live vein texture
- Branching (Eda): Well-structured, showcasing fine ramification
- Foliage: Deciduous, currently in dormancy, prepared for future dense growth

Bonsai Buxus Herlandi

Details :

- Species: Buxus harlandii (Chinese Boxwood)
- Bonsai Age: ± 20-30 years
- Style (Kei): Yose-ue (Forest Style)
- Size: Height ± 50 cm | Canopy Width ± 70 cm
- Nebari (Root Spread): Strong, with well-developed root anchoring on natural stone
- Trunk (Tachiagari): Multiple aged trunks with rugged bark texture
- Deadwood Features: Subtle natural deadwood, emphasizing aged character
- Branching (Eda): Well-balanced, forming a naturalistic forest canopy
- Foliage: Dense and vibrant green, carefully pruned for structure

Bonsai Serissa Micro

Details :

- Species: Serissa foetida (Snow Rose / Tree of a Thousand Stars)
- Bonsai Age: ± 15-25 years
- Style (Kei): Ishizuki (Rock-Grown Style)
- Size: Height ± 45 cm | Canopy Width ± 60 cm
- Nebari (Root Spread): Exposed roots elegantly wrapping around natural rock
- Trunk (Tachiagari): Graceful, twisted trunks with natural aging and textured bark
- Deadwood Features: Subtle Jin elements enhancing the aged look
- Branching (Eda): Well-structured with balanced movement
- Foliage: Fine, delicate small leaves with potential seasonal white flowers
